Change 4 . Part 2, Appendix E, page E-2, paragraph “52.212.1 Instructions to Offerors – Commercial Items (Nov. 1999),” add text to the end of subparagraph (d), as indicated below.

“(d) Contract award. The Government intends to evaluate each Statement of Qualifications and award a contract without discussions. Therefore, the initial Statement of Qualifications should comply with requirements in the solicitation and focus on the facts that are most relevant to the evaluation factors. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all Statements of Qualifications if such action is in the public interest; and waive informalities and minor irregularities in Statements of Qualifications received. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals. “
